

Y STORY OF THE MONTH

Edie Young, Branch Business Manager for the Williams YMCA does more than ensure that the YMCA electronic and paper systems are in working order. She has taken her passion for helping people and healthy living and turned it into opportunities for others to experience the YMCA the way she has.

When Edie was a young girl she loved gymnastics and would often dismantle her swing set and turn it into a gymnastic bar. Her parents knew that she needed a safe place to practice and hone her skills so they took her to the local YMCA and put her in the gymnastics class.

From there she was heavily involved in all sorts of youth activities and programs. As she grew older she moved away from the Y in pursuit of furthering her education and starting her own family. It wasn't until she was pregnant with her third daughter, Morgan, that she knew she needed to get back to the YMCA. "I knew that I couldn't keep up with the fast pace of the restaurant with three young children. So I started to think about my friends and realized that many of them worked at the Y. I would be much happier if I could work somewhere like the Y, and soon enough a new position opened at the Y. I applied and the rest is history!"

Today Edie will tell you that she originally thought she would go back to school to acquire her teaching license but the Y allows her to fill her soul's desire to help others through volunteer opportunities and the Y Access Program. The Y Access program is a subsidy program that allows anyone who qualifies to receive a YMCA membership and/or program registration at a reduced rate. "Y Access applications typically start as just a YMCA membership, but they quickly turn into connecting with the Avery County community, because these same people are now enrolling their kids in Summer Camp and Youth Basketball. The adults are meeting their friends for a Group Exercise class, or a Healthy Living program." Edie is excited to continue to grow the Y Access program and reconnect with members who she hasn't seen since the Y closed due to the pandemic. She also looks forward to working with Rosendo Lopez-Gale to offer the Y Access program to the Latino community. "It feels amazing to feel like I am doing something that matters in the community." - Edie Young

FREE & Open to the Public

Healthy Kids Day 2022

Celebrating 30 Years of Healthy Kids

Healthy Kids Day® is the Y's national initiative to improve the health and well-being of kids and families. YMCAs across the country host free community events aimed to inspire kids to keep their minds and bodies active throughout the summer months. **Here in Avery County**, the day-long event will feature activities ranging from dancing and free play to putt-putt and story time, and so much more! All activities are designed to inspire kids to get active while simultaneously teaching families how to develop routines that support mental and physical health at home.

Marjorie Williams Memorial Golf Tournament

The annual Leonard and Marjorie Williams Memorial Golf Tournament will take place on May 9th, 2022. We are proud to continue growing Leonard and Marjorie's legacy and the impact that they have had and will continue to have on those in the community. While they are no longer with us their support and passion to ensure children and other vulnerable populations receive the services they need will live on. The annual golf tournament not only serves to honor them but to continue their work by raising funds for scholarships for children and families in need.

Summer Camp Registration Now Open!

The YMCA is proud to offer summer camp again this year! Youth who attend will get to grow, play, and explore with a multitude of field trips, educational activities and outdoor fun. We strive to foster

numbers on a scale but instead it's better blood values, more energy, losing inches off your waist, having a balanced diet, I realized I was healthy and happy. This was a turning point for me and my success because I was able to appreciate the small wins, the hidden gems of success. I have learned that standing on a scale doesn't define your health but your determination to keep pushing when it isn't a number you can read, is what will help you be healthy. Instead it's a variety of things that add up to define your health and all of those

things need to be addressed, not just your weight on a scale." - Current Participant
